

## HOW TO DETERMINE YOUR RING SIZE

To verify the measurements of this ring size chart it should be printed at 100%, and the line below should measure 5" (125mm)

To determine a ring size, the ring should cover the circle so that the black circle touches the **inside** of the ring.

Please note that although you may use this ring sizer to get a fairly accurate measurement of your ring, it is always advised to have your ring sized by a professional jeweler, using a professional tool.
